

the York River home, like great blue herons, bald eagles and ospreys.

The York River is also a classroom for young environmentalists—a place where students actively learn about the values and ecology of the river habitat through forward-looking environmental curricula developed by the public schools. In addition to its value as a natural setting for young and old learners alike, the river also serves as a recreational center. The waterways of the York River provide fishing grounds for residents and visitors who fish for striped bass and flounder, and the river is increasingly used for sailing, canoeing, and kayaking.

But, the York River is more than a beautiful place with abundant natural resources. It is also a place where people are making their living. Small fishing operations carry on trades that have been practiced on the river for hundreds of years. Sections of the York River are nationally recognized historic working waterfronts, and continue to provide access to the river for water-dependent businesses. Through preservation of historic waterfront access points such as Sewall's Bridge, the York River community has made it possible for local lobstermen to continue to engage in a trade that has shaped and continues to define the spirit of Maine. And, the York River watershed is a place where farmers carry on Maine tradition, growing pumpkins, potatoes and other produce that keep Maine communities healthy. These farmers face the same development pressures that waterfront businesses do, and the York River community has made it possible for farms like Highland Farm to keep providing sustainable local food sources.

Visitors come to the York River to enjoy its unique recreational, scenic, and historic values, and the York River community welcomes them and recognizes that preserving and maintaining this vibrant landscape is of critical economic importance. The York River community's investments in conservation have been substantial and have resulted in the preservation of natural and historical aspects of the river that draw visitors from throughout Maine and throughout the nation. This study bill will be a vital means of continuing to support these important efforts so that the York River can remain a community resource for future generations.

COMMEMORATING THE 175TH ANNIVERSARY OF THE NATIONAL LIBRARY OF MEDICINE

HON. MICHAEL C. BURGESS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 23, 2011

Mr. BURGESS. Mr. Speaker, today I rise to commemorate the 175th anniversary of the National Library of Medicine. What began in 1836 as a small collection of medical books on a shelf in the library of the U.S. Army Surgeon General is now the world's largest biomedical library. The National Library of Medicine, part of the National Institutes of Health, is located in Bethesda, Maryland.

Today, the National Library of Medicine is much more than a collection of books. The National Library of Medicine is dedicated to the innovative use of communications and medical information to enhance public access

and understanding of human health as well as to provide valuable information resources for medical research. Whether it is serving to facilitate advances in medical technology, empowering the public to play an active role in managing health and health care, developing groundbreaking electronic health records, or responding to national emergencies with disaster management research, the National Library of Medicine is the world's most trusted resource for health information and innovation.

This historic anniversary is an opportunity to recognize the valuable contributions the National Library of Medicine has made to scientific discovery, health care delivery, and public health response. It is with great honor that I congratulate the National Library of Medicine on 175 years of excellence in medical and health information and look forward to seeing the positive effects its continuing innovation will have in the future.

HONORING NINOSKA PEREZ CASTELLON

HON. MARIO DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 23, 2011

Mr. DIAZ-BALART. Mr. Speaker, I rise today to recognize the work and accomplishments of a distinguished radio journalist, artist and community activist of South Florida, Ninoska Perez Castellon.

Ninoska Perez Castellon is a prominent figure among the exiled Cuban community and deserves our utmost respect for always promoting democracy and freedom. Ninoska was born in Havana, Cuba. At the age of nine, her family was forced to flee from communist Cuba, leaving Ninoska to begin a new life in the United States. Ninoska's family began to transition to their new life by adapting to the American culture and language; nevertheless, their roots were never forgotten.

Being raised and educated in Miami allowed her to be close to her family who ingrained values and morals into Ninoska that hold true today. Her mother, Mrs. Rogelia Castellon has not only been a loving mother but has also been a fountain of knowledge and wisdom for her daughter. Rogelia is an intellectual and indefatigable fighter for the liberty of Cuba. Despite the tribulations she has endured, Rogelia refuses to be discouraged.

Learning perseverance from her mother, Ninoska completed her studies at Miami-Dade College and the University of Miami. At a very young age, Ninoska began her role as an active leader against the tyranny of Castro's communism. She has not only advocated for Cuba's liberty on American soil but her message has reached many hearts and ears around the world. Her voice has broken many barriers of an enslaved country living under the most prolonged and cruelest dictatorship in the continent.

Ninoska and her husband, Roberto Martin Perez, tirelessly condemn each crime committed by the Castro regime. Roberto is an exemplary individual who experienced firsthand the horrors of Cuban prisons with courage and dignity for 28 long years.

Ninoska's profound knowledge and expertise led her to testify before the U.S. Congress as an expert witness on Cuban issues. As a

founder of various Cuban-American organizations, Ninoska has gained the respect of numerous exiled communities residing in South Florida.

Ninoska symbolizes the American dream and is testament to what can be accomplished through hard work and dedication. For over 25 years, she has developed professionalism in her work as a journalist and is now one of the most recognized personalities in radio, television and print media. She currently produces and directs the program Ninoska Mambi on the emblematic Spanish radio station Radio Mambi. In addition to her continued journalistic success, Ninoska is also a talented artist. Her artwork portrays her undying love of Cuba and has been displayed in many galleries.

As a lover of freedom and democracy, Ninoska defends the United States with the same dedication and passion as she does for Cuba. Ninoska, having immense passion, has never ceased to denounce the crimes and abuses of totalitarian regimes. Her ideas and knowledge will be everlasting in the books she has written.

Mr. Speaker, I ask my colleagues to join me in recognizing my dear friend, Mrs. Perez Castellon for her morals and principles, her loyalty and love of Cuba, as well as her talent and dedication to our community of South Florida. My most sincere appreciation and admiration goes out to you, Ninoska Perez Castellon, you are a special person who has dedicated a life both, personally and professionally, fighting for democratic principles and the liberty of Cuba.

JOBS AND ENERGY PERMITTING ACT OF 2011

SPEECH OF

HON. LAURA RICHARDSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 22, 2011

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2021) to amend the Clean Air Act regarding air pollution from Outer Continental Shelf activity:

Ms. RICHARDSON. Mr. Chair, I rise in strong support of the Capps amendment to H.R. 2021.

I thank my colleague, the gentlelady from California for bringing this amendment to the floor.

The Capps amendment corrects a glaring flaw in this legislation by maintaining the rights of states who have already been delegated authority to continue to regulate and monitor air pollution from offshore oil and gas operations that will ultimately affect their residents.

H.R. 2021 seeks to degrade state permitting powers by cutting time frames, restricting citizen engagement, and shifting responsibilities back to the Environmental Protection Agency.

I find it interesting that some of my colleagues who campaign on small government have decided to fight regulation by stripping authority from local agencies and handing it over to a federal bureaucracy!

Under the Clean Air Act, states have the right to issue permits and regulate emissions according to their own criteria, which either meet or exceed national standards.

States and localities should take the lead in regulating pollution because they are most responsive to the concerns of their citizens and
